

GX 12/29 EVO AGM FREE LIFT

FULLY FEATURED COMPACT STACKER

This compact, powerful and robust stacker is the ideal solution for working in confined spaces.

The reduced width (800 mm), the lateral driving system and the wide mast positioning allow great manoeuvrability, stability and visibility.

Built-in battery charger with integrated cable and plug make it a plug and play unit!

GX EVO AGM

The EVO version is equipped with powerful AGM deep cycle batteries that allow long endurance and large number of charging cycles. The ergonomic technopolymer tiller offers a comfortable grip. A specific electronic control enables lifting the forks with a proportional usage.

GX EVO AGM FREE LIFT

This stacker combines the features of the GX EVO AGM (long life and endurance AGM deep cycle batteries, proportional fork control) and a more ergonomic tiller with the total FREE LIFT, permitting to rise the forks up to 1.492 mm from the ground level without increasing the minimum machine height (1.965 mm).

For this reason the truck can also be used in working spaces with reduced height.

MANOEUVRABILITY

The overall width is the same as the Europallet (800 mm) to allow working in narrow spaces and corridors, increasing manoeuvrability and reducing the turning radius. The combination of side guide, wide mast and low cover offer outstanding visibility.

TILLER EVOLUTION

Fully integrated ergonomic technopolymer tiller system including finger tip throttle and proportional fork controls, safety pushbutton, horn, turtle button, hourmeter, battery status indicator as standard equipment.

TURTLE MODE SWITCH

Offered as standard, this function enables operating the truck in confined spaces: it allows the unit to travel with the tiller in upright position.

This function is activated by pressing the turtle button on the tiller and rotating the drive control throttle. The truck travels at limited speed.

Release the button to disable this function.

COVER

Strong ABS cover with storage compartments on top, easily removable to speed up maintenance operations. The bottom access opening enables an immediate disassembly of motor wheel, portal and tiller without lifting the machine. Schuko plug with spiral cable for an easy battery charging.

BATTERY PACK AGM

A separate compartment is the housing of AGM deep cycle batteries. Such batteries are powerful (110Ah), allow 3 hours endurance and don't need maintenance. GEL batteries available on demand.

GEL (OPTIONAL)

GEL batteries available on demand.
